PERSONAL PROFILE

A hardworking professional who thrives upon learning new things and developing new skills. I am currently employed within education and have a wide range of previous experience that informs my professionalism and adaptability including: Teaching, Military, Customer Service, Care Work, Hospitality and Retail. I love being challenged and trying new things, which is what led me to beginning my journey into becoming a software developer. I have learned so much in a short amount of time and am excited to continue this development and gain employment to support my growth within this industry.

I am currently enrolled onto a software development course and as such my knowledge will update continuously, I have included a link for my Github page, the projects on there will update as I proceed through the course.

My current aim is to secure my first position as a Junior Software Developer in a company with room to grow.

KEY SKILLS

WORK EXPERIENCE

September 2022 – Present

RNN Group

Careers Advisor

Offer a Careers service to learners and external clients, working across multiple sites and Liaising with outside agencies to take referrals from multiple pipelines. Independently managed my own workload and schedule. Produce high quality and up to date careers advice information and guidance to those who seek it. Deliver group sessions, one to one sessions and deliver talks and drop-ins through outreach events.

January 2022 – June 2022
Barlborough Primary School
Student Teacher (Year 6)

Planning and delivering high quality lessons to a Year 6 class with ranging academic abilities. Prepared and designed my own resources, researched and put into practise good teaching techniques to engage all students and ensure a range of activities to suit individual learners. Create a good safe learning environment, create good relationships with teachers, support staff, parents and students.

September 2021- December 2021
Winthorpe Primary School
Student Teacher (Year 1/2)

Planning and delivering high quality lessons to a Year 1/2 combined class. Having to prepare lessons that would engage pupils across age groups and ability levels. Creating my own resources and using reflective practise to continuously develop toward gaining Qualified Teacher Status.
